YOUR COCKTAIL'S NEW BEST FRIEND

HONEST-TO-GOODNESS FRESHNESS FROM PERRICONE FARMS

Nothing breaks the ice like an ice cold margarita, except maybe two. When you're sitting back and enjoying a margarita, artificial flavors are the last thing you want. Our fresh squeezed margarita mix starts with only the highest quality limes and lemons to create an unbelievably tasty drink. Whether you like yours frozen or over ice, we have the fresh margarita mix you want.

As the largest manufacturer of fresh squeezed juice in the Western United States, the Perricone Family has been bottling the very best citrus for over 78 years. We are the gold standard that other juices are compared to. We have a complete line of juices, from organic to fresh to pasteurized, in sizes from ½ pint to 6,000 gallon tanks. Fresh squeezed from our farms, we deliver honest-to-goodness freshness.

FRESH MARGARITA MIX

Contains 46% juice • Shelf life is 30 days from date of manufacture
